Assistant City Manager
City of Collinsville
125 S. Center Street
Collinsville, IL 62234

Dear Derek,

Thank you for your interest in Esri technology. We are looking forward to helping you achieve your goals and adding to the long-term success of the City of Collinsville. Please find the following proposal for the Small Government Enterprise Agreement (SGEA) we've discussed. Because Collinsville has a population of less than 25,000 people you qualify for Esri's SGEA Program Level 1. This program provides standardized pricing with unlimited use of Esri's core technologies as well as enough Named User licenses to support the organization. This standardized SGEA licensing also provides a significant discount over individual product licensing. The cost of the Level 1 SGEA is \$25,000 per year.

The following is a summary of impact that the proposed licensing will provide for the City of Collinsville:

- A SGEA is a 3-year program that provides access to all of the Desktop, ArcGIS Enterprise server, Named Users and Extensions you would need to be successful with GIS. This package also includes discounts on training for ArcGIS software along with timely and expert assistance from Esri so that you can focus on building a successful and scalable enterprise GIS.
- Use simple ArcGIS Online applications to perform work in the field & office as well as tie into Esri Partner products, such as Cityworks Online, etc..
- Have access to ArcGIS Enterprise. This will ensure the system's architecture follows best practices for reliability, scalability, performance and so there is a strong foundation to support deploying future applications.
- Have access to all of the Extensions necessary for future projects the city is planning for now and the future.

I will call to follow up with you in the coming days, but if you have any questions in the meantime, please don't hesitate to get in touch with me.

Thank you,
Brittany Stwalley | Account Manager | Esri Global Water Practice
